GREEN SHOOTS

Green Skills for VET Learning

ABOUT THE PROJECT

The GREEN SHOOTS Project is an EU-funded initiative dedicated to equipping Vocational Education and Training (VET) professionals with the green and digital skills needed to thrive in a sustainable economy. With a strong focus on innovation in pedagogy and curriculum design, the project supports the EU Green Deal and GreenComp initiatives, aiming to enhance the relevance and quality of VET across Europe.

LTTA TRAINING EVENT – ZAGREB, CROATIA

From April 8th to 10th, 2025, partners of the Green Shoots project gathered in **Zagreb, Croatia**, for an LTTA (Learning, Teaching, and Training Activity) hosted by **Callidus Institute**. This three-day training brought together educators, project partners, and innovators to dive deep into green career education, modern pedagogical approaches, and guidance techniques tailored for the evolving green job market.

Key Highlights:

The event kicked off with a collaborative icebreaker and a shared vision for the workshop's objectives. The first day was dedicated to exploring green jobs and their significance in local communities, featuring a blend of theory, interactive workshops, and digital tools. Day two focused on innovative teaching methods, lesson planning, and curriculum development—highlighting digital practices and the use of the Curriculum Builder Tool. On the final day, participants tackled coaching and career guidance strategies for green professions, ending the session with reflections and certificate presentations.

WHAT'S NEXT?

As Green Shoots progresses, the project will continue developing practical resources and digital learning tools to support educators in embedding green competences across their training. The next activities will focus on piloting training modules, collecting feedback, and expanding dissemination efforts across partner countries.
